FSC CERTIFIED 100% RECYCLED TEAK – (*Tectona grandis*)

## FSC RECYCLED TEAK – THE ENVIRONMENT

- Architects and surveyors now specify FSC certified because of concerns about the impact of building materials on the environment
- Government procurement officers are now required to specify FSC certified because of binding directives from the European Union
- Teak ‘the king of woods’ has been shunned by specifiers due to grave and persistent concerns over both the legality and environmental sustainability of any supply chain
- Brooks Bros is therefore delighted to announce a pioneering project which offers the UK Timber industry a world first - FSC 100% Recycled Teak
- Our FSC teak supply is 100% Reclaimed and is carefully recovered by hand from redundant structures thereby avoiding the need to fell living teak trees
- Specifying FSC Recycled Teak ensures compliance with all government regulations

### Teak timber Certification:

Brooks Bros hold their FSC Certification on chain of custody number TT-COC-1507.

An independent guarantee that all timber is sourced from 100% genuine post-consumer waste.

## FSC RECYCLED TEAK – CHARACTERISTICS

- All material is reclaimed and regraded from ancient beams and rafters
- Colouration is striking and varies from a golden honey hue to warm mocha
- Stable moisture content of approx 12% m.c from 60 to 100 years air drying
- Importantly not plantation grown; but slow natural forest growth
- All material is FSC Recycled - allow for some teak plugs, live knots & filled splits

This certification guarantees to all of our customers that this supply conforms to the highest environmental standards for timber established by the FSC (Forest Stewardship Council) .

For further information on the FSC please go to [www.fsc.org](http://www.fsc.org)

## FSC RECYCLED TEAK – LUMBER

### Core Specification (all surfaced due to export laws)

Thickness	Width	Length
26mm/4/4"Nominal (23.8mm actual)	5"+6"+7"+8" allowing 5-10% 3"+4"	6' to 11'9
32mm/5/4"Nominal (29.5mm actual)	Width variation e.g	
38mm/6/4"Nominal (36mm actual)	3" = any width between 2.5" & 3.25"	
52mm/8/4"Nominal (48,5mm actual)	4" = any width between 3.5" & 4.25"	
63mm/10/4"Nominal (60.5mm actual)	5" = any width between 4.5" & 5.25"	
75mm/12/4"Nominal (70mm actual)	etc. etc.	
100mm/16/4"Nominal (95mm actual)		

### Subject to Availability or Forward Order

Beams 5" & thicker	9"+10"+11"	3' to 5'9"-shorts-if accumulated
	12" wider	12' to 15'9" & 16' longer

### Quality Standard

One Face & One Edge - Recycled Prime Grade\* (see definition opposite)

Reverse Face & Reverse Edge - Recycled Character Grade\* (see definition opposite)

## FSC RECYCLED TEAK – VALUE ADDED PRODUCTS

- Decking - two reversible patterns, smooth one side, 1.8m to 3.0m long
- Decking pattern a) 20 x 110mm & decking pattern b) 20 x 140mm
- Teak flooring - 20 x 135 mm, T & G all 4 edges. 1,2m to 3.0m long
- Teak kitchen worktops & teak parquet flooring blocks (forward order)

### \*Recycled Prime Grade

One face & one edge of boards within specification will be free from defects but are permitted features of:

- Live knots of any size & unlimited colour variation
- Wides & longs (may also have splits up to 2mm wide - max length 10% board and/or 1-3 plugged nail holes up to 25mm diameter)

### \*Recycled Character Grade

Reverse face & edge may have the following permitted features:

- Live knots of any size
- Unlimited colour variation
- Splits up to 3mm wide - max length 25% board
- 1-3 plugged nail holes up to 25mm diameter
